

# ISLAND NEURO NETWORK

**Accidents and disease have led to 12.5 million people suffering from Neurological problems in the UK**

**The care and treatment of those with a neurological disease is complicated and can affect their life for many years.**

**People affected are not only the person with the condition but their carers, families and friends too.**

## The Island Neuro Network can help

**Our role is to signpost where you can find current practical local information and support. We work with and promote small Island based groups and individuals.**

the brain injury association

**We do NOT replace medical, nursing and social care advice but aim to help people connect with the right people that can help with their needs.**

**We aim to support Individuals of all ages, within our Island communities, that are living with many neuro conditions including: Brain injury, Parkinson's Disease, Multiple Sclerosis, Motor Neurone Disease, Epilepsy, Huntington's Disease, Ataxia, Spina Bifida, Myasthenia, CMT, etc.**

**ROYAL ISLE OF WIGHT  
AGRICULTURAL SOCIETY COUNTY  
SHOW –  
SATURDAY 27TH JUNE 2015**
